REGENCY

A Suite suitable for most commercial areas including toilets, offices and fitting rooms which are not subjected to wash down or high humidity.

SPECIFICATIONS

Material

18mm Melteca moisture-resistant particle board surface laminated.

Colours

Available in a wide range of attractive Formica® Melteca® colours.

Extrusions

Anodised aluminium as standard.
Powdercoated aluminium as an option.

Hardware

Indicator bolt with vacant/engaged indicator and emergency release function.
Stainless steel adjustable pedestal.
Hat and coat hook.
Toilet roll holder available as an option.

Installation

Lanwood partitions are supplied complete with hardware ready for installation by the contractor. As an alternative, installation can be arranged by Lanwood Industries Ltd. It is preferable to have all other finishing work complete before installation. Allowance should also be made for screw fixing of partitions to surrounding walls.

Maintenance

No maintenance apart from normal cleaning is required.

All partitions supplied with...

- Standard or spring hinges
- Privacy lock and indicator
- Stainless steel pedestals
- Hat and coat hook
- Anodised aluminium extrusions
- Overlay doors in either open-in, open-out or sliding configuration.
